HONGKONG, May 24th, 1899.

THE news contained in the Manila telegram published in yesterday's issue will have been received with much satisfaction, we think, by the friends both of the Americans and the Filipinos. President McKinley has at last been induced to offer the Filipinos a form of government in which the supreme control is to be retained by America, the President appointing the Governor-General, who selects his own Cabinet, but there is to be an advisory Council elected by the Filipinos, and natives are to be eligible for appointment both as members of the Cabinet and as Judges. This form of government is to be provisional only, pending action by Congress, which body may possibly enlarge the native privileges but is not at all likely to curtail them. The arrangement will probably not prove entirely satisfactory to the Filipinos, who aim at complete autonomy, but the compromise is one which they may accept without loss of dignity. They have made a gallant struggle under adverse conditions, in which they have won the respect of the Americans and of the foreign community of Manila, and they might now, we think, safely leave the full accomplishment of their political aspirations to time and constitutional agitation. Had the Americans been able at the outset to offer what is now conceded the Filipinos would in all probability never have offered armed opposition, and they may fairly be congratulated on having won such a substantial concession. According to the New York correspondent of the Times, telegraphing on the 21st April, a change has come over the spirit of the Press in the States. The leading journals of Boston, Philadelphia, Baltimore, St. Louis, and San Francisco oppose, or many of them do, the "killing of more Filipinos," urge "a pacific adjustment," and protest against "crushing liberty and independence among the Filipinos." It is presumably in response to this trend of public opinion that the present proposals of the President have been made, and the same force may be relied upon to secure a further measure of autonomy when time has matured the situation. Meanwhile the retention by America of the direct control of the administration will obviate the danger of internal dissension, which might have ensued serious inconvenience to, if it had not entirely wrecked, a purely native republic. It will ensure the maintenance of order, promote public works, encourage the development of the country and the investment of capital, and supply the elements of strength and stability in which a purely native administration might possibly have been found lacking. We are inclined to think that had the Filipinos been granted full autonomy they would not have abused the privileges, for they are an orderly, law-abiding, industrious, and commercial people, moderately educated and with men of culture amongst them, but it will be a wholesome safeguard to have good order and progress guaranteed by a strong Power like the United States. The Filipinos were originally required to lay down their arms uncon-

ditionally before any negotiations could be entered upon, but they are now to be spared that indignity, and are afforded an opportunity of making honourable terms. It is to be hoped that good councils will prevail and that a lamentable war may be brought to a satisfactory termination, honourable to both the parties, and that when the "Glorious Fourth" arrives it may inaugurate a new era of peace and ever-increasing prosperity in the neighbouring isles.

The New York World suggests that as the Filipinos are neither "insurgents" nor "rebels," but a people who are loyal to the United States, and most faithful to the United States, they should be designated as "contaminated two-dollar citizens," as the \$20,000,000 to be paid to Spain, divided by 1,000,000, the number of Filipinos, gives them that small sum as gratuity. There is nothing like simple arithmetic to settle any controverted point.

The Hongkong Gazette of the 8th May says—Letters received in Hongkong say that Captain Walker, Intelligence Officer with the Barro-Chinese Boundary Commission, obtained permission from Brigadier Liu to proceed across Yunnan, when the demarcation of the Northern section of the boundary was to be made, in the middle of April. It was Captain Walker's intention to march north with Mr. Jamieson, who has been transferred from the British Consulate at Kowloon to the Consulate at Moupin, and turning west at Moupin to Myitkya via Sado. The journey is a long one, and it is improbable Captain Walker can reach Myitkya before the end of May.

At the Magistrate's yesterday an Indian constable, No. 633, was charged with assaulting a Chinese boy, who appeared with a bribe over his right eyebrow which the boy said was caused by the constable striking him with his stick. Two soldiers saw the assault committed and gave the constable into the custody of another constable. The latter refused to take the constable, saying "I never mind whether he is (take him to the Central Police Station)," said they, and they followed him to see that he took him there. On the application of Mr. Dick-McBarnes, who appeared for the defendant, the case was adjourned until Thursday. It was stated that defendant has been in the Police Force for about 11 years.

ADMIRAL DEWEY IN HONGKONG.

ARRIVAL YESTERDAY.

After an absence of over 15 months spent in the overhauling of the Philippines, Admiral Dewey finds himself once more in Hongkong, where he has called on his way home to the United States.

It was about half past eight yesterday morning when the *Olympia* sailed the port, and about an hour afterwards an aide-de-camp from the Admiral made his way to the American Consulate, and it was arranged that his Admiral should land at eleven o'clock.

Consul-General Williams went on board the *Olympia* at half past ten, being received with the salute due to his rank, and shortly afterwards accompanied the Admiral and Admiral Lamberton and Lieutenant Brumby ashore.

The Admiral was received by a guard of honor composed of about 70 members of the Royal Welch Regiment, with the band, regimental colors, and the regimental flag, Captain Bannard being in command. The guard presented arms and the band struck up "The Star-Spangled Banner."

The Admiral went straight to Government House, where he was received by Sir Henry Blake. His Excellency invited the Admiral to reside at Government House during his stay here, but the Admiral expressed his regret at his inability to accept this kind offer, the state of his health necessitating his spending the short time—about ten days—he will remain with us at the Peak.

From Government House the Admiral went to Headquarters, where he was received by H.E. Major-General Gaudin, and he subsequently called upon Commodore Powell.

The Admiral and his staff take up their residence at the Peak Hotel.

The *Olympia* will dock here and will then proceed leisurely home, stopping at several of the Mediterranean ports en route in order to give the men a little holiday after their nearly two years' cruise.

On account of his health the Admiral has had to decline the Governor's invitation to be present at the dinner given at Government House to-day in honor of the Queen's birthday. It is to be hoped, however, that before he leaves he will feel himself well enough to go about a little.

THE MUTUAL STORES EMBEZZLEMENT CASE.
At the Magistrate's yesterday before Mr. T. S. Corcoran Smith, Regina, Hopkin was charged on remand with embezzling \$1,000, he being charged to the proprietors of the Mutual Stores.

Mr. Hastings appeared for the prosecution, defendant being undefended.

Evidence was given by Mr. Hurley, who had examined the books of the firm, the case was further adjourned.

THE SENSATIONAL CASE AT SHANGHAI.
The N. O. Daily News of the 19th May says—The sensational stories that have been circulated about the case of the *Yunnan* have been confirmed by the news from Shanghai.

The *Yunnan* is a small steamer, and it was not until she was captured by the British fleet that it was known that she was carrying a large quantity of opium.

It was reported that a syndicate of Chinese gentlemen in Burma have purchased the steamer *Sydney* from the Krawaddy Flotilla Company. The vessel is to be sent to China for work on the Yangtze river. The *Sydney* will shortly leave Hongkong for China—*Strait Times*.
